URLS FOR PROJECT

- Github Repo
 - <https://github.com/jssg33/statsback542>
 - (This is a Private Repo with invite sent to your cse/usc emails).
- Front-End(Azure Static Web Server(Kestrel))
 - <https://yellow-cliff-04c6b2d10.7.azurestaticapps.net>
- Back-End(App API in C#)
 - <https://cockyinvestments-ghehe0a8a7cge7fk.westus3-01.azurewebsites.net>
 - This is an API running on Windows Server(Custom) which spins up and down with usage(cheap student plan). First access can be slow.
 - Swagger -> Username: admin Password:spirit
